

1) Roll call and opening

Tolonen told that this is second meeting of new way to work in commission. Operations, Legislation and CBRN Groups are history since last meeting.

I. Tolonen, M. Watering, R. Raidna, I Urbanonovics, E. Kirsch, S Heiles

2) Minutes of the last meeting Kotka 2015

Accepted

3) LNG

The group have the film sent by Watering friday 22.5.2015
(<https://www.youtube.com/watch?v=BtP2JrpB5IY>).

The film is very useful for every country. It helps to understand the properties and dangers of the leak of LNG.

Watering shows new guidelines (6) for different accidents. Those guidelines are written in Dutch except one. Watering have translated LNG-fuelstation guideline in English and he showed the English version to the group.

Watering promised to translate the rest 5 guidelines in the end of this year. He'll send the guidelines then to the group. The delegates have 3 months time to compare them to their own guidelines. Next meeting in Croatia the group will decide whether those guidelines need any comments if necessary. Also the group decide if the guidelines shall have the acception from hazmat commission. Then the guidelines are also recommended to use by Hazardous Materials Commission
